Magome Pass (Magome Juku ~ Tsumago Juku)

Magome Pass is an 8-kilometer hiking course connecting Magome Juku and Tomago Juku, both of which retain their picturesque townscapes. The "Kiso Valley" stretching north from Magome Juku is an area of particularly rich nature and deep mountains. Its spectacular natural beauty has attracted many travelers since ancient times. In addition, the rugged terrain has fortunately allowed the Kiso Road to retain much of its historical legacy even after the Edo period (1603-1868).

This Magome Pass is truly the entrance to the Kiso Valley, where the beauty of Japan is concentrated. A journey that begins here will be an unforgettable experience, allowing you to experience firsthand the rich natural beauty of the Kiso Road and the breath of history that has been passed down through time. Begin your exploration of the Kiso Road at Magome Pass and experience the profound charm of Japan.
